Sakamoto Parents' Comments and Testimonies

Becoming a Sakamoto student has allowed Jacob to develop his interest in Math in a social setting that would not be possible in home tutoring. The small teacher-student ratio has further enhanced the nurturing learning environment to bring out the best in him.

PSLE A* (2010)

Thaddea Chua , Primary 5 >

My daughter used to hate solving challenging problem sums as she has difficulty understanding them. However after attending Sakamoto lessons, her confidence in Math has been greatly elevated and I can see a big improvement in her grades.

PSLE A* (2008)

“ I am honoured to receive the “Good Management Centre” award again and would like to take this opportunity to thank the Sakamoto Management Team in Singapore for their constant support & guidance all these years. Here at ColourTrain, our well trained & highly qualified teachers adhere strictly to the Sakamoto Teachings. Through our analytical coaching, students are able to effectively use the Sakamoto Method to break down the word problems into simple components and solve them with ease. We will continue to commit ourselves to delivering quality teaching and ensuring that our students reach their maximum potential. Gambatte! ”
